INTERESTS

Software Development
Backend Development
Problem Solving
Data Structures
Artificial Intelligence
Continuous Learning

PROFILE

3rd-year Computer Science student with a strong interest in software development, particularly backend and full-stack web development. Comfortable working across several programming languages and web technologies, with hands-on practice through academic projects and self-driven learning. Continuously building problem-solving skills and technical depth through coursework and independent practice.

EDUCATION

Computer Science

Expected Graduation: 2028

Faculty of Computers and Information, Zagazig University — Egypt

Currently a 3rd-year Computer Science student. Studying core areas including Object-Oriented Programming, data structures, problem solving, databases, and web development, while building practical skills through coursework and personal projects.

TRAINING & EXPERIENCE

Innovation & Ideation Trainee

~3 days, about a month ago

Creative Innovation Hub — Ministry of Communications and Information Technology (MCIT)

- Participated in the Innovation & Ideation training program.
- Developed problem-solving, teamwork, communication, and creative thinking skills.

PERSONAL / ACADEMIC PROJECTS

Sportswear E-Commerce Website

Frontend web project featuring a product listing page and a responsive shopping-style layout. Built with HTML, CSS, JavaScript, and Bootstrap.

Real Estate / Rental Villas Website

Web application practicing backend and database concepts, including property listing pages. Built with PHP, Laravel, and SQL.

Restaurant Website

Responsive frontend website featuring a menu display and multi-section layout. Built with HTML, CSS, JavaScript, and Bootstrap.

COURSES

- Full Stack PHP & Laravel Training — National Telecommunication Institute (NTI)
- Database Fundamentals (Level 1) — Mahara-Tech (Abu Hadhoud course)
- Data Structures (Level 1) — Mahara-Tech (Abu Hadhoud course)
